## MAKE AN EMERGENCY SUPPLY KIT

If there is an emergency you might not be able to get food, water or other things you need to survive. That's why you should make an emergency supply kit with enough supplies for you and your family for at least three days.

- ✓ A supply of water in bottles or jugs (at least one gallon for every person in your home for each day).
- ✓ Food in cans or sealed packages that do not have to go in the refrigerator or be cooked.
- ✓ Manual can opener, paper plates, plastic utensils, paper towels, toilet paper, soap.
- ✓ Battery-powered radio, flashlights, cell phone, cell phone car charger, and extra batteries.
- ✓ First-aid kit with medicines, eye glasses, medical supplies and a list of the doctors you go to.
- ✓ Extra set of car keys, credit cards, cash and important information like social security numbers and birth certificates.
